

## Mint Carwash Website:

- Joomla
- Similar style as TCPL website.
- Option to Filter Mobile or Hand Car Washes in the list.
- Mobile Carwash Icon: we come to you. Hand Car Wash Icon: find us/drive to our locations.

## Parkwash website:

- Joomla
- Similar style as TCPL website.
- Parkwash on the main page mobile style.
- Parkonomy colours/concepts
- Bottoms: Home, About Us, Why Us, News, Contact Us, Search Car Washes
- We want to have different filters as below:
  - Mobile car wash
  - Hand car wash (static)
  - Automated car wash (static)
  - Motorbike wash
  - Caravan wash

At the moment we have not got all the options but it will be added soon we need flexibility to add on. In filter we need to have options such as to choose one or mix of two options even more so if customers wants to have mobile + automatic car wash we can show what they picked. Like when you do hotel booking choose 4 star and 3 star hotel only
